MÚSICA  
El aura satánica que rodea al cantante de los Rolling Stones emerge de nuevo tras el escándalo iniciado de su novia, la diseñadora L'Wren Scott. Acusado de cometer un pecado como abusión del sexo, drogas y rock 'n' roll, Jagger no dudó en explotar su identificación con El Maligno en momentos como la grabación de 'Sylvia's Mother', en la que muestra un dibujo de Satán en su torso desnudo. Su Satánica Majestad ofreció un mítico concierto rock en el estadio Santiago Bernabéu el próximo 25 de junio, cuyas entradas salen hoy a la venta.

BILL EVANS  
El poeta del piano

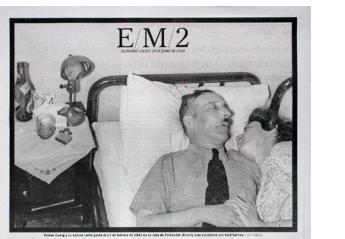

Su virtuosismo y su inspiración le convirtieron en los años 60 en leyenda del jazz, a la altura de Charlie Parker o Miles Davis. Nadie ha sacado tanto partido de un teclado en las últimas décadas como este genio que da vida a la grabación de *Kin of blue*. Un inconformista que expresa su arte para crear una música que nos llega al corazón.
